

**Karaganda State Industrial University
invites you to take part in
XLVI scientific and practical conference
"Scientific creativity of the young to innovative development,
carried out together with the Kremenchug National University
named after Mikhail Ostrogradsky (Ukraine)**

April 7-8, 2016

INFORMATION MESSAGE

The purpose of the conference is the discussion of the results of scientific research problems of metallurgy, economics, construction, engineering, technology and education, and also practical recommendations for their use in science and practice.

CONFERENCE AREA OF WORK:

1. *Section "Metallurgy and Metallurgical Science"*
2. *Section "Metal forming. Technology of mechanical engineering"*
3. *Section "Chemistry, Chemical Technology and Ecology"*
4. *Section "Power System, Power Industry and Automation of Production"*
5. *Section "Physical and Mathematical Sciences and Information Technologies"*
6. *Section "Architecture and Construction"*
7. *Section "Economic Sciences and Business"*
8. *Section "Social humanities"*
9. *Section "Philological Sciences"*
